HARROGATE LADIES COLLEGE - POOL

Complete refurbishment and re-modelling of the pool, spectator seating and changing areas. By completely re-modelling the spectator seating area and altering the position of the poolside changing rooms, the well used pool at HLC has been brought up to date.

Client: Harrogate Ladies College
Value: £150k

Hosting swimming lessons and Galas, the pool enjoys a great deal of use by the school and by outside visitors so it's important that the facilities provided are excellent.

In addition to completely re-tiling the whole area, the ceiling was removed to expose the metal beams in the roof creating a light and airy feel to what was quite an enclosed area.
